

BOWS

JOSEF FRANK

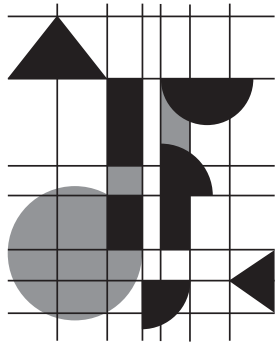

Illustration capturing the spirit of modernism late 19th and early 20th century. Design: Almedahls

Bows by Professor Josef Frank

Josef Frank (1885 - 1967) was an Austrian-Swedish architect and one of the foremost representatives of modernism in Austria. Josef Frank created the Bows pattern during the period 1920-1930 as part of a larger collection of patterns mixing geometrical shapes with elements from nature. We proudly present a selection of products with the original Josef Frank Bows pattern. www.almedahls.se

almedahls

Almedahls presents a new serie of home decoration products based on the pattern Bows made by Professor Josef Frank

The Bows products from Almedahls applies to our tradition of products and patterns with vinity and deep roots in the nordic design heritage.

Josef Frank (1885 - 1967) was an Austrian-Swedish architect and one of the foremost representatives of modernism in Austria. Josef Frank created the Bows pattern during the period 1920 - 1930 as a part of a larger collection of patterns mixing geometrical shapes with elements from nature.
